9069.20

- (a) An interment right provides a transferable property interest to the person listed as the owner in the records of the cemetery district, subject to any written designation to the contrary signed by the owner and deposited with the cemetery district, or to the owner's successor pursuant to either this section or subdivision (a) of Section 9069.25. An interment right shall not be construed as conferring title to the property burdened by the transferable property interest.
- (b) The owner of record of an interment right may designate in writing the person or persons, other than the owner of record, who may be interred in the plot to which the owner holds the interment right.
- (c) The owner of an interment right shall, at the time of purchase, designate a successor owner or owners of the interment right in a signed written designation deposited with the district.
- (d) Use of an interment right transferred from the owner to a successor pursuant to subdivision (c) shall be made in compliance with applicable provisions of state and local law, and of applicable requirements or policies established by the district board of trustees.
